SUMMARY

Highly motivated and results-oriented Web Developer with 4+ years of experience, leveraging a strong foundation in technical support and a passion for building innovative software solutions. Skilled in a variety of programming languages and eager to learn new technologies. Proven ability to collaborate effectively in teams, manage critical operations, and troubleshoot problems. Demonstrated success in exceeding client expectations and achieving high project completion rates.

WORK EXPERIENCE

Software Developer

Inno Infotech, United Kingdom | Sept 2023 – Present

- Developed and implemented key components of an open-architecture platform.
- Collaborated with a team of 11 developers to achieve a 98% on-time, on-budget project completion rate, utilizing code reviews and testing tools to ensure code quality.
- Debugged code and handled backend tasks to streamline project workflow.
- Mentored junior developers, significantly improving their code coverage through best practices.
- Delivered solutions with exceptional client satisfaction (95%) across diverse sectors like telecom, finance, trading, and retail.

Business Analyst

Storilabs System Tech, United Kingdom | Jan 2023 – June 2023

- Successfully gathered and conveyed project requirements from client meetings to the off-shore team.
- Recommended and implemented solutions that enhanced business process efficiency.
- Ensured procurement processes were aligned with business needs and avoided duplication.
- Produced high-quality documentation that supported project initiatives and stakeholder understanding.

Systems Engineer

Tata Consultancy Services, India | Jan 2020 – Jun 2022

- Supported CITI Bank CBK batch processing across 16 APAC & EMEA countries, ensuring timely resolution of critical abends using mainframe tools and strong problem-solving skills.
- Delivered application support, enhancements, and deployments using mainframe technologies, consistently exceeding service level agreements.
- Led a 16-member team on shift rotation, managing SOPs and ensuring production code stability through disaster recovery exercises.
- Performed root cause analysis for production issues to minimize downtime and prevent future occurrences.
- Managed daily health checks and proactively collaborated with stakeholders for incident resolution and outage mitigation.

Software Developer

Exeter Premedia Services, India | Jun 2019 – Oct 2019

- Developed and integrated software solutions to ensure seamless operation and enhance user experience.
- Led the full-stack development of web applications, managing all aspects from database design to user interface creation.
- Designed and implemented a user-centric system for tracking user concerns, bugs, and defects related to new interfaces, improving user satisfaction and feedback collection.
- Collaborated with clients and internal teams to communicate project progress, coordinate system installations, and provide technical support.
- Project: Phylogenetic Tree Validation System:
 - Designed an intuitive and user-friendly front-end interface using HTML, CSS (Bootstrap), and JavaScript for efficient data entry and visualization.
 - Developed the back-end logic using Node.js for robust data processing and file validation, ensuring data accuracy and consistency for end-users.

EDUCATION

MSc Computing

University of Northampton, United Kingdom | 2022 – 2023

- Intelligent Systems: Python (Pandas, Scikit-learn).
- Mobile Software Development: Android, Kotlin, PHP, API integration, user interface design.
- Internet Programming: JavaScript, PHP, jQuery, HTML, CSS, server-side development.
- Visual Software: Java, (JavaFX), graphical component development.
- Database: MySQL, Neo4j, database query optimization.

BTech Computer Science Engineering

Pondicherry University, India | 2015 – 2019

TECHNICAL SKILLS

Web Technologies	HTML, CSS, Bootstrap, JavaScript, TypeScript, ReactJS, Node.js, Laravel
Programming Languages	Java, PHP, Kotlin, Python
Frameworks	JavaFX
Databases	SQL, MySQL, Neo4j
Version Control	Git, GitHub
Package Management Tools	NPM
Other skills	REST APIs, Mainframe, OOP, PowerShell, Microsoft 365, Power Apps, Power Automate, API Development and Integration, Communication, Requirements Gathering, High-Quality Documentation

PROFESSIONAL DEVELOPMENT & TRAINING

Full stack developer – Coding Traineeship

6 months

- Completed a comprehensive program, mastering full-stack development skills in HTML5, CSS3, JavaScript, PHP, SQL, React, jQuery, Python, Node.js, Bootstrap, and more.
- Developed proficiency in version control (Git/Github), remote API access, and frameworks like React, demonstrating efficient code management and integration capabilities.
- **Built two functional web applications:** "Gazetteer" (mobile-first map app using third-party APIs) and "Company Directory" (mobile-first employee database with error prevention).

CERTIFICATIONS

Agile Methodology Job Simulation
Software Engineering Job Simulation

Cognizant | Forage | 12 – 2023
JP Morgan Chase & Co. | Forage | 12 – 2023

ACHIEVEMENTS

On The Spot Badge (3 Times):

- Awarded by TCS for excellence in team work during multiple critical deployments.

Star of the Month Award (2 Times):

- Individual award for performance based on a point system.
